

Repeat Prescriptions

Tuesday, 01 April 2008

Last Updated Tuesday, 22 April 2008

The repeat prescription line is: 01382 461099 (24hr answerphone)

Patients on regular medication may order these by repeat prescription using the following methods:

- Telephoning the repeat prescription line. The answerphone message will instruct you to leave details of your name, address and the names of the drugs you require;
- Completing the repeat prescription form, attached to the main prescription or an order slip at reception;
- Requesting in writing and enclosing an SAE.

Repeat prescriptions are only available for collection after two working days (please allow extra time at public holidays or if you use a chemist collection service).
